

# Lab 2 Submission

## Virtual Machine settings

```
justine-s@justine-s-VMware-Virtual-Platform: ~  
justine-s@justine-s-VMware-Virtual-Platform:~$ neofetch  
Command 'neofetch' not found, but can be installed with:  
sudo apt install neofetch  
justine-s@justine-s-VMware-Virtual-Platform:~$ cpufetch  
[ERROR]: Unknown microarchitecture detected: M=0x5 EM=0x7 F=0xF EF=0xA S=0x2  
[VERSION]: cpufetch v1.05 (Linux x86_64 build)  
Please, create a new issue with this error message, the output of 'cpufetch' and 'cpufetch --debug' on http  
s://github.com/Dr-Noob/cpufetch/issues
